## PRIVAT LABEL

DEVELOPMENT AND PRODUCTION  
OF A WIDE RANGE OF COSMETIC  
PRODUCTS

**32 YEARS** OF  
EXPERIENCE

Our production can offer your customers different colors, scents, active substances and consistency.

We develop and manufacture products for demanding customers as well as for ordinary consumers, natural and vegan, professional or mainstream.

Portfolio also includes the production of cosmetics in ampoules with volumes 2ml a 10ml filled with products for hair and skin care. We are able to deliver ampoules in color, printed, in box or bulck, according to your request. We also deliver plastic snap off cap and a dispenser cap.

Development teams are constantly educating at international conferences and are not afraid to take on challenges.

*COMPLEX SOLUTIONS*

*DEVELOPMENT*

*PRODUCTION*

*QUALITY*

We are a family company that employs a hundred people in two production halls. The company was founded by Ivan Milý 1 year after the fall of communism in Slovakia, in 1991. He built the factory on a green meadow and gradually expanded the production and storage areas.

Our intention is to be able to create as much product value as possible under one roof. We have our own laboratories and produce our own packaging. The company is located between the two national parks, from which we draw inspiration when creating our own brands.

## **Laboratory and development**

Our cosmetics are developed and controlled in our own laboratories, where top experts work. We also carefully test the safety of products. We develop our own recipes, we also produce according to supplied recipes.

Slovak legislation falls under the EU legislation and testing, hygiene controls and audits are a matter of course for us. We can create products of different colors, scents and active substances. We check the products intensively and we also cooperate with accredited laboratories for quality control and microbiology.

*OUR TECHNOLOGIES ARE  
ABLE TO PRODUCE A WIDE  
RANGE OF PRODUCTS.*

### **Technologies**

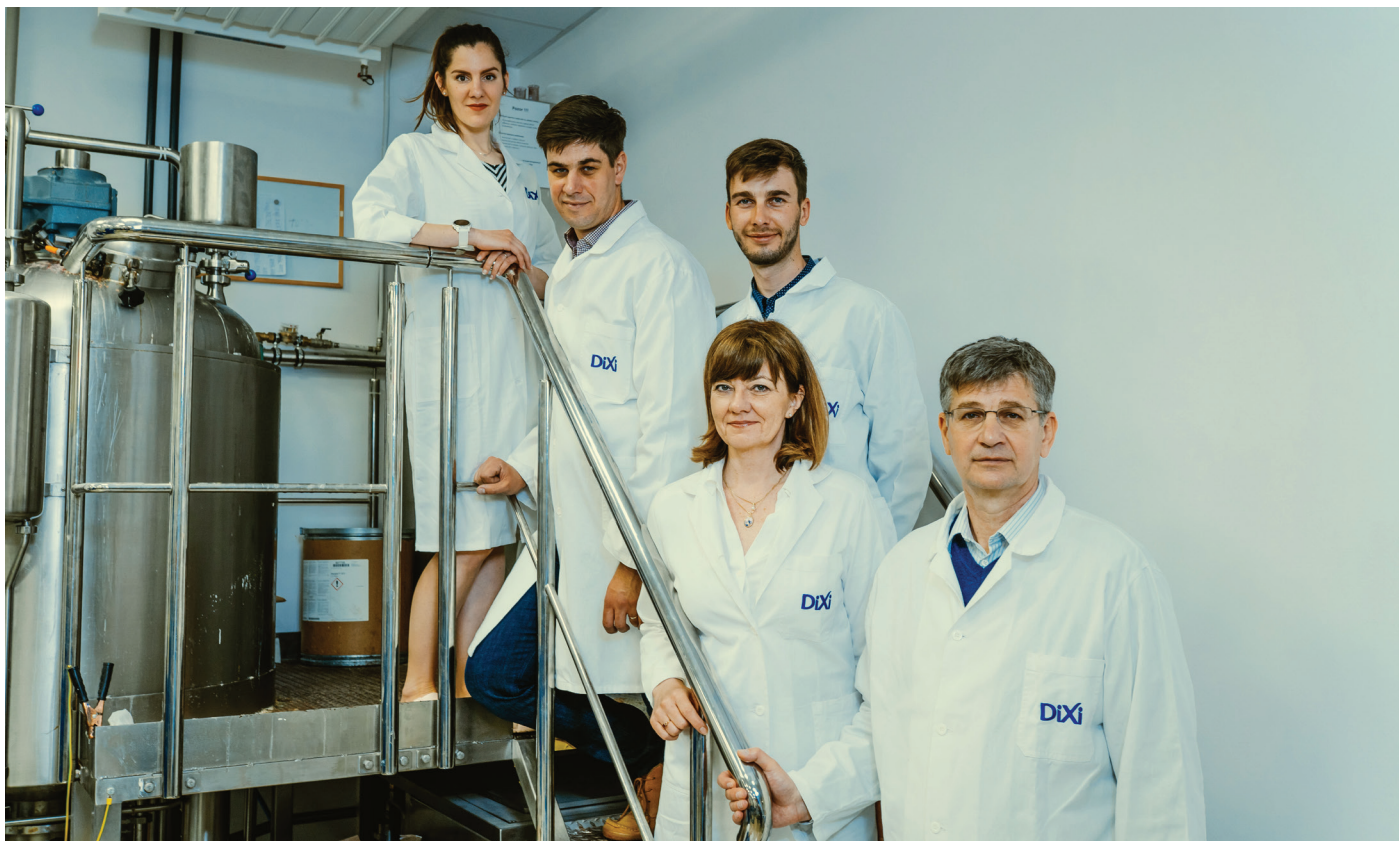

Modern equipment and a clean, strictly controlled environment, in combination with the hardworking hands of our colleagues is a guarantee of the quality of our production.

Modern fully automated production lines produce quantities of products from 1 kg to 6 tons.

### **Our satisfied customers**

For a long time, we produced and still produce private brands for several international chains and Czech-Slovak sales networks. Satisfied customers are Tesco, Billa, Kaufland, Coop, CBA, Milk Agro, Palma, Tatrabet. We also produce products for barbershops and hotel chains.

## Values

Our goal is to offer goodness to customers, employees and the community. We focus on the quality of the product as much as the quality of the relationships.

The region in which we operate is a source of inspiration and values for us. We want to make a good name for it thanks to the satisfaction of clients all over the world.
